Birational Geometry and Singularities
in Positive Characteristic

We would like to inform you that the workshop " Birational Geometry and Singularities in Positive Characteristic" is due to take place as follows:

Date : November 5th (Tue) – 9th (Sat), 2013
Venue : Room 002 at the Mathematical Science Building, University of Tokyo
(you can find information on how to get to the venue at
`http://www.ms.u-tokyo.ac.jp/access_e/index_e.html`)

This workshop will focus on some of the outstanding recent developments in algebraic geometry in positive characteristic. Below is a tentative list of speakers:

- Manuel Blickle (Mainz)*
- Paolo Cascini (London)
- Andre Chatzistamatiou (Duisburg-Essen)
- Yifei Chen (Chinese Academy of Sciences)
- Satoru Fukasawa (Yamagata)
- Katsuhisa Furukawa (Waseda)
- Nobuo Hara (Tohoku)
- Hiroyuki Ito (Tokyo University of Science)
- Junmyeong Jang (Ulsan)
- Linquan Ma (Michigan)
- Kentaro Mitsui (Kobe)
- Zsolt Patakfalvi (Princeton)
- Akiyoshi Sannai (Nagoya)
- Karl Schwede (Penn State)
- Hiromu Tanaka (Kyoto)
- Chenyang Xu (Beijing)
    * to be confirmed

We hope you will be able to attend and look forward to seeing you in Tokyo.

Sincerely yours,

The organizers:
Yujiro Kawamata, Yoshinori Gongyo, Shunsuke Takagi
