FIRST ANNOUNCEMENT OF THE **COE** CONFERENCE :

Nonlinear integrable systems and their real world applications

to be held at the

Graduate School of Mathematical Sciences
The University of Tokyo

14 February ~ 18 February 2005

as part of its 21st century COE program :
"New mathematical deployment center to support scientific technology"

The conference will focus on the interface between the mathematical study of nonlinear integrable systems and physical "real world" applications of nonlinear models in general. It is expected that informed use of the most recent results in both disciplines will lead to new and hopefully cross-disciplinary developments in the mathematical theory of integrable systems as well as in mathematical modelling.

Organizing Committee :

Kazuo Okamoto, Junkichi Satsuma, Tetsuji Tokihiro, Ralph Willox

Inquiries & Applications :

Graduate School of Mathematical Sciences, The University of Tokyo,
3-8-1 Komaba, Meguro-ku, 153-8914 Tokyo, Japan.
TEL: +81-3-5465-7000 // FAX: +81-3-5465-7010
willox@ms.u-tokyo.ac.jp

Application deadline : 30/11/2004
