

Nakahiro YOSHIDA

Papers and Books

- [1] N. Yoshida: “On asymptotic mixed normality of the maximum likelihood estimator in a multidimensional diffusion process”, In: K. Matsusita (ed.) *Statistical Theory and Data Analysis II* (1988) 559–566 North-Holland
- [2] N. Yoshida: “Robust M-estimators in diffusion processes”, *Annals of the Institute of Statistical Mathematics*, **40**, 4, (1988) 799–820
- [3] N. Yoshida: “Asymptotic behavior of M-estimator and related random field for diffusion process”, *Annals of the Institute of Statistical Mathematics*, **42**, 2, (1990) 221–251
- [4] N. Yoshida and Toshiharu Hayashi: “On the robust estimation in the Poisson processes with periodic intensities”, *Annals of the Institute of Statistical Mathematics*, **42**, 3, (1990) 489–507
- [5] N. Yoshida: “Conditional Fisher information and non-ergodic statistical inference”, In: Umegaki, H. and Takahashi, W. (eds) *Proceedings of the 13th Symposium on Applied Functional Analysis* (1991) 14–21
- [6] N. Yoshida: “Estimation for diffusion processes from discrete observation”, *J. Multivariate Analysis*, **41**, (1992) 220–242
- [7] N. Yoshida: “Asymptotic expansions of maximum likelihood estimators for small diffusions via the theory of Malliavin-Watanabe”, *Probability Theory and Related Fields*, **92**, (1992) 275–311
- [8] N. Yoshida: “Asymptotic expansion for statistics related to small diffusions”, *J. Japan Statist. Soc.* **22**, (1992) 139–159
- [9] N. Yoshida: “Asymptotic expansion of Bayes estimators for small diffusions”, *Probability Theory and Related Fields*, **95**, (1993) 429–450
- [10] N. Yoshida: “Malliavin calculus and higher order statistical inference”, *Statistical Science and Data Analysis* (K. Matusita et al. eds.), (1993) 175–180
- [11] N. Yoshida: “Asymptotic expansions for perturbed systems on Wiener space: maximum likelihood estimators”, *J. Multivariate Analysis*, **57**, (1996) 1–36
- [12] Y. Sakamoto and N. Yoshida: “Asymptotic expansion of mixture type statistics based on generalized Wiener functionals”, *J. Multivariate Analysis*, **59**, (1996) 34–59,
- [13] N. Yoshida: “Asymptotic expansion of estimators for diffusion with small noises”, In: Subba Rao, T. et al. (eds), *Applications of time series analysis in astronomy and meteorology*. London: Chapman & Hall (1997), 41–44.
- [14] N. Yoshida: “Asymptotic expansion for martingales with jumps and Malliavin calculus”, In: Azzalini, A. and Parpinel, F. (eds), *Atti del convegno in onore di Oliviero Lessi*. Universita degli Studi di Padova. (1997), 195–199.
- [15] N. Yoshida: “Malliavin calculus and asymptotic expansion for martingales”, *Probability Theory and Related Fields*, **109**, (1997) 301–342
- [16] Y. Sakamoto and N. Yoshida: “Asymptotic expansion of M-estimator over Wiener space”, *Statistical Inference for Stochastic Processes*, **1**, (1998) 85–103
- [17] N. Yoshida: “Malliavin calculus and statistics”, In: *Encyclopedia of Statistical Sciences* (S. Kotz et al. eds.), Update Volume 3, (1999) 430–435

- [18] 阪本雄二, 吉田朋広: “Malliavin 解析と統計的漸近理論”, 統計数理, 47, 1, (1999) 175–200
- [19] S. Kusuoka and N. Yoshida: “Malliavin calculus, strong mixing, and expansion of diffusion functionals”, Probability Theory and Related Fields **116**, (2000) 457–484
- [20] M. Uchida and N. Yoshida: “Information criteria in model selection for mixing processes”, Statistical Inference for Stochastic Processes, 4, (2001) 73–98
- [21] N. Yoshida: “Malliavin calculus and martingale expansion”, Bull. Sci. math. **125**, (2001) 431–456
- [22] Y. Sakamoto and N. Yoshida: “Asymptotic expansion under degeneracy”, J. Japan Stat. Soc. **33**, (2003) 145–156
- [23] N. Yoshida: “Conditional expansions and their applications”, Stochastic Processes and their Applications **107** (2003) 53–81.
- [24] N. Yoshida: “Malliavin calculus and Statistics”. (in Japanese) Sugaku **55** (2003) 225–244.
- [25] H. Masuda and N. Yoshida: “An application of the double Edgeworth expansion to a filtering problem”, Statistics & Probability Letters **70** (2004) 37–48.
- [26] N. Yoshida: “Partial mixing and conditional Edgeworth expansion”, Probab. Theory Related Fields **129** (2004) 559–624.
- [27] Y. Sakamoto and N. Yoshida: “Asymptotic expansion formulas for functionals of epsilon-Markov processes with a mixing property”, Annals of the Institute of Statistical Mathematics **56** (2004) 545–597.
- [28] M. Uchida and N. Yoshida: “Information criteria for small diffusions via the theory of Malliavin-Watanabe”. Statist. Infer. Stochast. Process., **7** (2004) 35–67.
- [29] Y. Sakamoto, Y., Y. Takada and N. Yoshida: “Expansions of the coverage probabilities of prediction region based on a shrinkage estimator”. Statistics **38** (2004) 381–390.
