

# Working Seminar on Integral Geometry

Date: October 22 (Fri) 10:30–11:30

Place: RIMS Room 402

Speaker: Bernhard Krötz (RIMS)

Title: Working Seminar on Integral Geometry 3

## Abstract:

We will finish our discussion on the space for horocycles with no real points attached to a compact symmetric space. A key fact in this context is a certain uniform boundedness result for matrix coefficients (due to Clerc) which will be explained in detail.
