

FIFTY YEARS OF TOMITA-TAKESAKI THEORY

June 15-19, 2020
the University of Tokyo, Japan

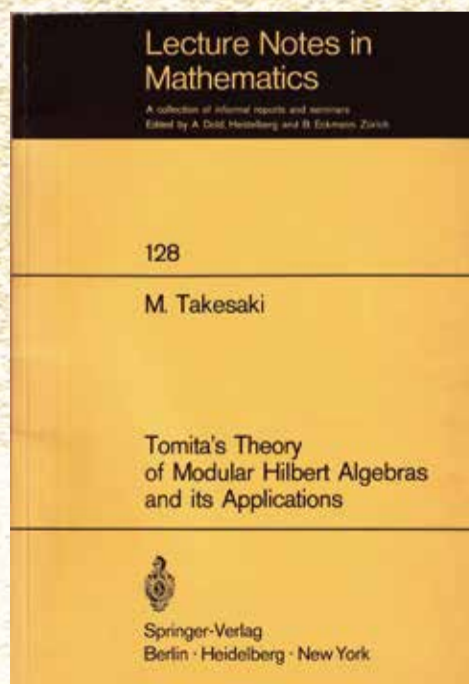

Organized by

Masaki Izumi ✨ Yasuyuki Kawahigashi ✨ Yoshiko Ogata ✨ Narutaka Ozawa

This is on the occasion of the 50th anniversary of publication of Takesaki's Springe Lecture Notes volume, "Tomita's theory of modular Hilbert algebras and its applications". He will attend the conference.

The conference is held at Graduate School of Mathematical Sciences, the University of Tokyo. The conference is open to everyone. We cannot give financial supports to participants except for invited speakers, unfortunately. If you have any inquiry, please send one to Yasuyuki Kawahigashi (yasuyuki@ms.u-tokyo.ac.jp).
